

JUNGBIN JUN

jungbjun@naver.com | github.com/jungbinary | jungbinary.github.io

EDUCATION

Inha University | GPA: 4.42/4.50, Major GPA: 4.47/4.50

Mar 2022 – Sep 2026 (Expected)

B.S. | Statistics

Incheon, South Korea

Early Graduation (3 years); Rank 1/41

PUBLICATIONS

Jungbin Jun, Ilsang Ohn, “Online Conformal Inference with Retrospective Adjustment for Faster Adaptation to Distribution Shift”, *Under revision at Pattern Recognition*, 2025.

Ilsang Ohn, Shitao Fan, **Jungbin Jun**, Lizhen Lin, “Early-stopped aggregation: Adaptive inference with computational efficiency”, *In preparation*, 2026.

RESEARCH EXPERIENCE

Theoretical Statistics Lab at Inha University

Mar 2025 – Present

Undergraduate Researcher (Advised by Prof. Ilsang Ohn)

Incheon, South Korea

- Proposed a method for online conformal inference under distribution shift, with theoretical analysis of long-run coverage. Contributed to the core idea and led the empirical evaluation.
- Conducted experimental studies in Bayesian clustering and high-dimensional sparse regression to demonstrate the effectiveness of early-stopped aggregation.

Research Center for Small Businesses Ecosystem at Inha University

Dec 2022 – Sep 2023

Undergraduate Researcher (Advised by Prof. Seunghoun Kim)

Incheon, South Korea

- Explored synthetic data generation, focusing on generation principles and evaluation metrics.

WORK EXPERIENCE

National Institute of Environmental Human Resources Development

Feb 2025; Aug 2025

Teaching Assistant

Incheon, South Korea

- Assisted in delivering hands-on Python training for Ministry of Environment officials, with a focus on data visualization and environmental data analysis.

Korean Augmentation to the U.S. Army (KATUSA)

Sep 2023 – Feb 2025

Sergeant, 188th Military Police Company

Daegu, South Korea

SELECTED COURSEWORK

Statistics

Mathematical Statistics I, II (A+); Regression Analysis (A+); Bayesian Statistics (A+); Multivariate Statistics and Lab (A+); Experimental Design (A+); Time Series Analysis and Lab (A+); Statistical Computing (A+)

Mathematics and Computer Science

Analysis I, II (A+); Linear Algebra I (A+); Data Structures (A+)

SCHOLARSHIPS AND AWARDS

Excellence Scholarship, Inha University

2023, 2025

Hanjin Group Scholarship, Inha University

2026

- Awarded to the student ranked first in the department.

SKILLS

Programming: Python, R, LaTeX

Languages: Korean, English
